3-Strand Polypropylene Rope Monofilament

Polypropylene is a lightweight and strong general purpose rope. It is rot proof and unaffected by water, oil, gasoline, and most chemicals. Polypropylene floats yet it is twice as strong as manila. Our regular monofilament polypropylene rope is made with a medium lay, allowing for easy splicing. Harder lay pot warp which is ideal for fishing applications is also available.

Categories: Ropes and Cordages, 3-Strand Polypropylene Rope Monofilament

Key Features

Yellow, Black, Tan, International Orange, Red, Red with Orange Tracer, White, Blue, Blue/ White, Black with Orange Tracer

Additional sizes and colors available to special order

Standard reels of 300 ft., 600 ft., 1,200 ft. and 2,400 ft.

3-Strand Nylon Plus Rope

3-strand twisted nylon plus is a nylon/polyester blend known for its elasticity and tremendous shock absorbing qualities. When new, nylon plus ropes can stretch up to 20 - 25% of their length before breaking. Stretch characteristics will reduce relative to the amount of use and can lose 10% of its tensile strength when wet. It has good abrasion resistance, is rot proof, resists oil, gasoline, and most chemicals. It has good resistance to UV rays. Nylon plus will last 4-5 times longer than natural fibers.

Categories: Ropes and Cordages, 3-Strand Nylon Plus Rope

Key Features

Available Colors: White and Black

Additional sizes and colors available to special order

Standard reels of 300 ft., 600 ft. and 1,200 ft.

Excellent for shock load and high energy absorption applications.

Specific Gravity 1.14.

3-Strand Poly Dacron Combo Rope

Polydac rope is made from a combination of polyester and polypropylene fibers and is an excellent, low cost, general utility rope. This economical, high strength rope has very low stretch properties, high abrasion resistance and is easily spliced. Additionally polydac has good dielectric properties. Used in construction and fishing industries.

Categories: Ropes and Cordages, 3-Strand Poly Dacron Combo Rope

Key Features

- White with a colored tracer, White, Black, and Tan
- Additional sizes and colors available to special order
- Standard reels of 600 ft. and 1200 ft.
- 1/4" to 1-1/4" on reels.
- 1-1/2" to 3" in coils.

Manila Rope

Manila rope is made from natural abaca fiber and has some advantages over synthetic fibers. It is not affected by heat, and has an excellent resistance to the sun's UV rays. Manila rope has low stretch and good abrasion resistance, but poor chemical resistance, and is subject to rot. Ideal for a low-cost general-purpose rope. Used in shipping, construction, agriculture and many other areas.

Sisal Rope

Our sisal rope is biodegradable, knots well, and low chemical resistance. Sisal rope is commonly used in the shipping industry for mooring small craft, lashing, and handling cargo. The strength and length make this choice popular.

Categories: Ropes and Cordages, Sisal Rope

Key Features

100% sisal

Biodegradable and recyclable

Bundling rope for home farming and shipping

Special unoled option is animal friendly

Hollow Braid Polypro Rope

Hollow braid polypropylene rope is a strong lightweight rope that floats in water, great abrasion resistance, spliceable and will not kink. This rope is great for pulling wires, life ring throw ropes, buoys, floating lines, tie-downs, and crowd control barriers.

- Standard Colors: Yellow and Black (additional colors available)
- Standard reels of 500 ft. and 1000 ft.

Categories: Ropes and Cordages, Hollow Braid Polypro Rope

Key Features

- Does not mildew, rot, or deteriorate even if stored wet
- Will not kink
- Floats
- Minimal stretch design for durability

Bulwark Safety X Kernmantle Static Rope

Our Bulwark Safety X Kernmantle Static Rope is a superior strength rope with low elongation and rotation. This smooth rope is commonly used for mountain climbing, cave exploration, arborist, rescue applications, and horizontal lifeline.

Categories: Ropes and Cordages, Bulwark Safety X Kernmantle Static Rope

Key Features

Excellent grip cover

Low Elasticity

NAFTA parallel twisted nylon core for superior strength

Soft and supple with excellent abrasion elements.

Balanced-Ply non-rotational inner core and outer sheath

Excellent UV and abrasion resistance

Good resistance to chemical

Specific gravity: 1.38 (sinks in water)

5:1 recommended working load

UL certified to NFPA 1983-2017 Technical Use

3-Strand Mega Rope

General Work Products registered trademark Mega Blue-3S™ is one of the strongest co-polymer ropes in the market today. The Sky-Blue fiber with two Red tracers have become the industry standard for high performance marine rope. Manufactured from high tenacity polyolefin yarns, Mega Blue-3S™ offers easy handling, high strength, excellent abrasion resistance and excellent UV characteristics. Custom order is available to match boat fleet colors per request.

Categories: Ropes and Cordages, Mega Rope

Key Features

- Super strength and easy handling
- Excellent UV and abrasion resistance
- High-performance marine rope
- No loss of strength when wet; and floats in water.
- Specific gravity 0.91.
- Available in a variety of put-ups, 3-strand, 8 braid and 12-strand

Endura 12

Endura 12 is very high strength, low stretch, and has low creep. It utilizes the latest ultra-high molecular weight polyethylene fiber in a 12-strand construction. This high-tech fiber and construction provide an extremely high strength, lightweight rope that is non-rotational and easily spliced. Endura 12 is ideally suited for wire rope replacement applications where size, strength, and stretch are the main design considerations. Applications include tug boat toelines, winch lines, tug pendant and mainline, helicopter lifting lines, trawl line, underground pulling lines and slings.

Categories: Ropes and Cordages, 12-Strand

Key Features

Excellent abrasion resistance

Easy to inspect

Maximum strength to weight ratio

Extremely low stretch

BEXCO

Bexco 12

Bexco 12 strand braided ropes are made of HMPE with improved abrasion resistance, very high strength, and low weight to diameter ratio. This 12 strand HMPE is easy to handle and operate with comparable to steel wire rope characteristics. Common sectors are bulk carriers, container ships, fishing vessels (nets), and passenger ships.

Categories: Ropes and Cordages, 12-Strand

Key Features

- Good abrasion resistance
- Temperature Resistance: 70°C max continuous
- Dry and Wet Conditions: Wet strength equals dry strength
- Master Reels
- Made in Belgium

Part #	Diameter	Circumference	Color	Minimum Breaking Strength (lbs.)
BEXCO12FOOT1-1/8	1-1/8"	3-1/2"	Blue	133,000
BEXCO12FOOT1-1/4	1-1/4"	3-3/4"	Blue	149,000

HYPER-XII™

HYPER-XII™ is our high strength, low creep, and low weight to diameter 12 strand HMPE. By strategically combining small diameters with high breaking strength our proprietary HMPE, HYPER-XII™, rope is ABS certified to provide the best performance. HYPER-XII™ is commonly used in sectors like passenger and container ships, bulk carriers, LNG and LPG carrier barges, tugs, harbor towing, dredgers, and fishing vessels and nets. Additionally, a specific gravity of 0.975 allows it to float making it very useful in a marine environment.

Performance HMPE

Our heat-treated 12 strand rope with polyurethane coating is torque-free that yields a maximum strength to weight ratio, with the same strength as steel wire rope of similar diameter. This HMPE rope is an excellent replacement for wire rope. Additionally, a specific gravity of 0.98 makes it very useful in a marine environment.

Fabricated Products

Our skilled splicing facility offers rope assemblies and fabrication services. Along with superior customer service, General Work Products provides you with professional consultation to care for your custom requirements. Other services such as inspection, testing and training services are also available.

Fabrication Service

- Custom synthetic rope fabrication and fittings
- Standard industry assemblies
- Soft eyes
- Hard eyes
- Hand dipped eyes
- Taglines
- Face lines
- Double braid pull-line
- Tethered Tools
- Coated chafe gear

Hardware

- Blue line thimbles
- Stainless thimbles
- Hawser thimbles
- Composite thimbles

Ropes

- 12-strand HMPE ropes
- 12-strand polyester ropes
- 8-strand Mooring ropes
- 12-strand Mooring ropes
- Double braid ropes
- 3-strand ropes

8-Strand Blue Danline w/6' Canvas Covered Eyes Both Ends

8-strand high strength danline mooring lines, used for mooring larger vessels. These ropes have a high strength to weight ratio, float and do not absorb water. Additionally, they have high resistance to abrasion and chemicals. All our mooring lines are supplied with 6-foot covered eyes on both ends and come with either ABS or Lloyds certificates.

Categories: Ropes and Cordages, Mooring Lines/Tails

Nylon Plus Mooring Tail

8-Braid plaited nylon plus rope is a non-rotational rope that eliminates hocking and other problems associated with twisted anchor lines. Nylon plus is known for its elasticity and tremendous shock absorbing qualities. Other properties include good abrasion and UV resistance. Additionally, it resists oil, gasoline, and most chemicals.

3-Strand Poly Dacron Black Battle Rope

Polydac rope is made from a combination of polyester and polypropylene fibers and is an excellent, low cost, general utility rope. This economical, high strength rope has very low stretch properties, high abrasion resistance and is easily spliced. Additionally polydac has good dielectric properties. Used in construction and fishing industries.

Double Braid Nylon

Our double braid is high heat resistant and torque-free. It is designed to absorb sudden shock loads and generally used as an anchor, mooring, towing and dock lines. A must-have for securing a boat when not in use. Double Braid Polyester also available in the below sizes.

- Available Colors: White
- Standard reels of 600 ft., 1200 ft., and Master reels

Categories: Ropes and Cordages, Double Braid Nylon

Key Features

- High strength and abrasion resistance
- Multi-Purpose
- Rot and mildew resistant
- Minimal stretch design for durability
- Nylon provides more stretch than polyester
- Double braid construction holds knots firmly in place
- Spliceable
- Perfect for yachting, dock lines, camping, and other outdoor applications

3-Strand Cotton Rope

Our 3-strand cotton rope construction is a 65% cotton / 35% polyester blend produced using three cotton strands twisted together to make a soft, versatile, and dynamic rope. This rope is ideal for horse halters, livestock, lead ropes, hammocks, crafts, bag handles, and decorative projects. Exceptionally simple to tie and graft; makes this rope one of the most mainstream materials for creating versatile DIY crafts, hobbies, and home décor.

· Available lengths include: 300 ft., 600 ft., and 1200 ft.

Categories: Ropes and Cordages, Cotton Rope

Pull Tape

Our premium polyester pull tape is lightweight, thin, and high strength resulting in enhanced efficiency and worker safety. This wide and flat profile is mostly used in small and almost impossible to reach ducts and conduits. Marked with printed measurements every foot, our premium pull tape is perfect for contractors. When pulling heavy cables, the construction of this cord protects it from heat and friction, preventing breaks.

- Available Colors: White
- Standard widths are 1/2", 5/8", and 3/4"
- Master reels of 3000 ft. to 5000 ft.

Categories:
Ropes and Cordages, Pull Tape

Poly Pull Line

PALMER POWER - Poly Pull Line is a heavy-duty pull-line available in either white with blue tracer or white with black tracer for easy identification. A continuous-fiber polyline can be blown directly into conduit. Pull-line features convenient packaging in a 4 gallon bucket with pre-punched top for easy access.

PHYSICAL PROPERTIES - Poly Pull Line 6500'

- Capacity: 210 lbs. average breaking strength
- Poly Line 6500' (1981.2m), Blue Tracer

PHYSICAL PROPERTIES - Poly Pull Line 2200'

- Capacity: 500 lbs. average breaking strength
- Poly Line 2200' (670.5m), Black Tracer

Categories: Ropes and Cordages, Twine

Key Features

- Ready-to-use, pre-punched hole in lid with resealable cap.
- Use with power fishing systems directly from the container.
- Resists tangling when dispensing.
- Rot and mildew resistant.
- Handy reusable plastic dispenser pail with handle keeps the line dry.
- Use to pull rope through conduit.

Tree Rope

Grip Tight™ Tree Rope is manufactured from a proprietary blend of monofilament polypropylene joined with a spiral wrap. This produces a highly flexible and durable tree rope that will not fray when cut. Our lay-flat design will not damage tree bark, trunk or limbs. Grip Tight™ Tree Rope is more economical when compared to natural fiber rope. Our rope will not mildew, rot and is UV stabilized.

- Average Tube Weight: 4.2 lbs.
- Typical Tensile Strength: 620 lbs.

Categories: Twine

Filament/Strapping Tape

Our Filament Tape is great for any packing functions and supporting heavy loads and weak box construction. This versatile tape is abrasion, moisture and scuff resistant to most fiberboard, plastic, and metal surfaces. Common applications include light-duty strapping, bundling, and reinforcing items. This is a perfect choice for fastening to irregular surfaces, including plastic and metal.

Thread Seal Tape

For professionals and non-professionals alike, our thread seal tape provides a high-grade tool built for a lifetime. Quick and easy application that is flexible, durable, non-toxic, and not reactive to chemicals. This material forms a tight long-lasting seal that is commonly used with water, air, gases, and piping systems servicing most acids.

Steel Banding

Our steel strapping is a strong and reliable strap that provides high shock resistance during delivery. Applications include securing packaged glass, wide loads, wood shipping containers, and securing irregular loads to pallets. Perfect choice for heavy duty loads that require high strength restraint.

- Standard widths include: 1/2", 5/8", 3/4", 1-1/4", 2"
- Packaged on a pallet of 14 or 22 (90-100 lb average) rolls

Categories: Strapping / Seals / Tools, Steel Strapping

Key Features

- High strength
- Stronger than poly strapping

BT3/4CRIMPER	3/4"	

Tensioner

Our tensioner is a manual tensioner that is easy to use, lightweight, and great for uneven surfaces. Most used for industrial strapping and household packaging. Applications include securing goods for transport, pallets, and warehouses loads.

Categories: Strapping / Seals / Tools, Tools

Key Features **Part #: BTTEN**

- Easy to use
- Great for uneven surface
- 3/8"-3/4"

Sealless Tensioner

Our sealless tensioner is a two in one manual tensioner and sealer that is easy to use, lightweight, and great for uneven surfaces. Most used for industrial strapping and household packaging. Applications include securing goods for transport, pallets, and warehouses loads.

Categories: Strapping / Seals / Tools, Tools

Key Features Part #: STCSL200

Easy to use

Great for uneven surface

1/2"-3/4"

Banding Cart

Our banding cart is portable and provides easy dispensing of steel strapping or banding.

Categories: Strapping / Seals / Tools, Carts

Key Features Part #: BCART

Mobile

Works great with steel and plastic banding

Durable

Easy to use

3-1/2 Lb. (16 gauge) Tie Wire

Our industrial use tie wire is easy to bend and manipulate for flexible fastening. This wire is commonly used to secure a rebar in place or tie several rebars together before concrete is poured. No tool box should be without a roll.

Categories: Tie Wire

Key Features

Flexible, Durable, and Thin

Part #	Size	Special Type	Case
CMBW16	16 GA. (3-1/2 lb roll)	Black	20 rolls

100 Lb. (9 gauge) Tie Wire

Our industrial use 9-gauge black annealed tie wire is a 100 lb spool that is softer and more flexible than iron. Common uses may include binding, tying, bundling, and bailing for farm work or personal use.

Categories: Tie Wire

Key Features

More flexible than iron; Annealed

CMBW9	9 GA. / 100lbs	Black	Bundle/10

Oil Pads

Our sonic bonded oil pads are long-lasting pads that bond fibers together at small points, making this product highly sorbent. Perfect for small spills or dripping on tools, equipment, and cement floors. These high performance oil pads absorb industrial fluids cleanly and efficiently, even in small and hard to reach spaces.

- Our white oil pad is perfect for petroleum based product spills.
- Our grey oil pad is a universal pad ideal for all liquids including aggressive chemical spills and leaks.

Categories: Sorbents

Metal Buckets and Lids

Our metal bucket and lids offer additional strength and durability. This bucket is a great outdoor or household multipurpose accessory that can handle a large range of applications. To prevent leakage and adding extraordinary resistance our metal buckets have curling on the top edge that prevents deformation during handling and securing a more reliable closing process.

Categories: Buckets and Lids

Key Features

- Metal handle provides high strength reliability
- Triple seam technology

Part #	Product	Color	Volume
MB5G	Buckets	Grey	5

Palmer Safety X75

The Palmer Safety X75 glove with velcro strap delivers an ANSI Cut Level A7 and an ANSI Puncture Level 5. The red, sandy nitrile anti vibration padded palm provides optimal abrasion and cut resistance along with a strong grip in dry and wet environments. The light and breathable 13-gauge High Performance Polyethylene (HPPE) backing provides a moisture wick material with the flexibility needed to get any job done. There is a reinforced support between the thumb and forefinger to prevent wear along with a stitched Hi-Vis TPR for ideal impact resistance.

LIMITED FLAMMABILITY

Plain Toe Boots

Our flexible boots are waterproof and resistant to most common chemicals. The textured and wider sole provides a sure grip for non-slip traction. The application includes environmental clean-up, construction, and agriculture.

Categories: Personal Protective Equipment, PVC Boots

Key Features

DESIGN:

- PVC Rubber
- Removal insole
- Lined for Comfort
- Slip-resistant sole
- Abrasion-resistant PVC leakproof protection

Steel Toe Boots

Our steel toe PVC boots are resistant to organic chemicals and some exposure to oils. These steel toes provide a comfortable fit with a removable cushion insole for better alignment and improved heel cushioning.

Categories: Personal Protective Equipment, PVC Boots

DESIGN:

- Slip-resistant sole
- 100% waterproof
- Removal insole
- Comfortable and flexible

STANDARDS:

Steel Toe meets or exceeds ASTM F2413-11 I/75 C/75.

Steel Toe with Steel Sole

Our steel toe and steel sole PVC boots are resistant to organic chemicals, and some exposure to oils. These steel toe and steel sole boots provide a comfortable fit with a removal cushion insole for better alignment and improved heel cushioning. Additionally, the steel plate in the sole helps protect from sharp objects penetrating the bottom of this steel-plated boot.

Categories: Personal Protective Equipment, PVC Boots

Key Features

Why Palmer Safety?

Palmer Safety is a full service fall protection and safety training organization with offices in Houston, New Orleans, New York, and Los Angeles.

We are different in regards to how we go to business. We believe knowledge is power and, in the case of fall protection, can mean life or death. We want our customers to buy our material, but most importantly we want to be the place you come to for information that is critical for you, the end user, to run your safety operations.

Our technical sales force has the background to deliver a service level that most of our competition has given up on due to indirect costs. We pride ourselves on being able to work with you to solve your safety needs as a team.

There are a number of companies out there that you can buy from, and there are plenty of choices you can use. We hope you base your buying decision on not only price, but also the knowledge and customer service that comes with that purchase. We offer the complete package: high quality products serviced by experienced personnel with industry knowledge. Along with that, we provide first rate industry specific safety training courses with more in development. That is our definition of full service and what Palmer Safety delivers to our customers across the United States.

Most importantly we believe in stocking what we sell. If we offer it, we should be stocking it.

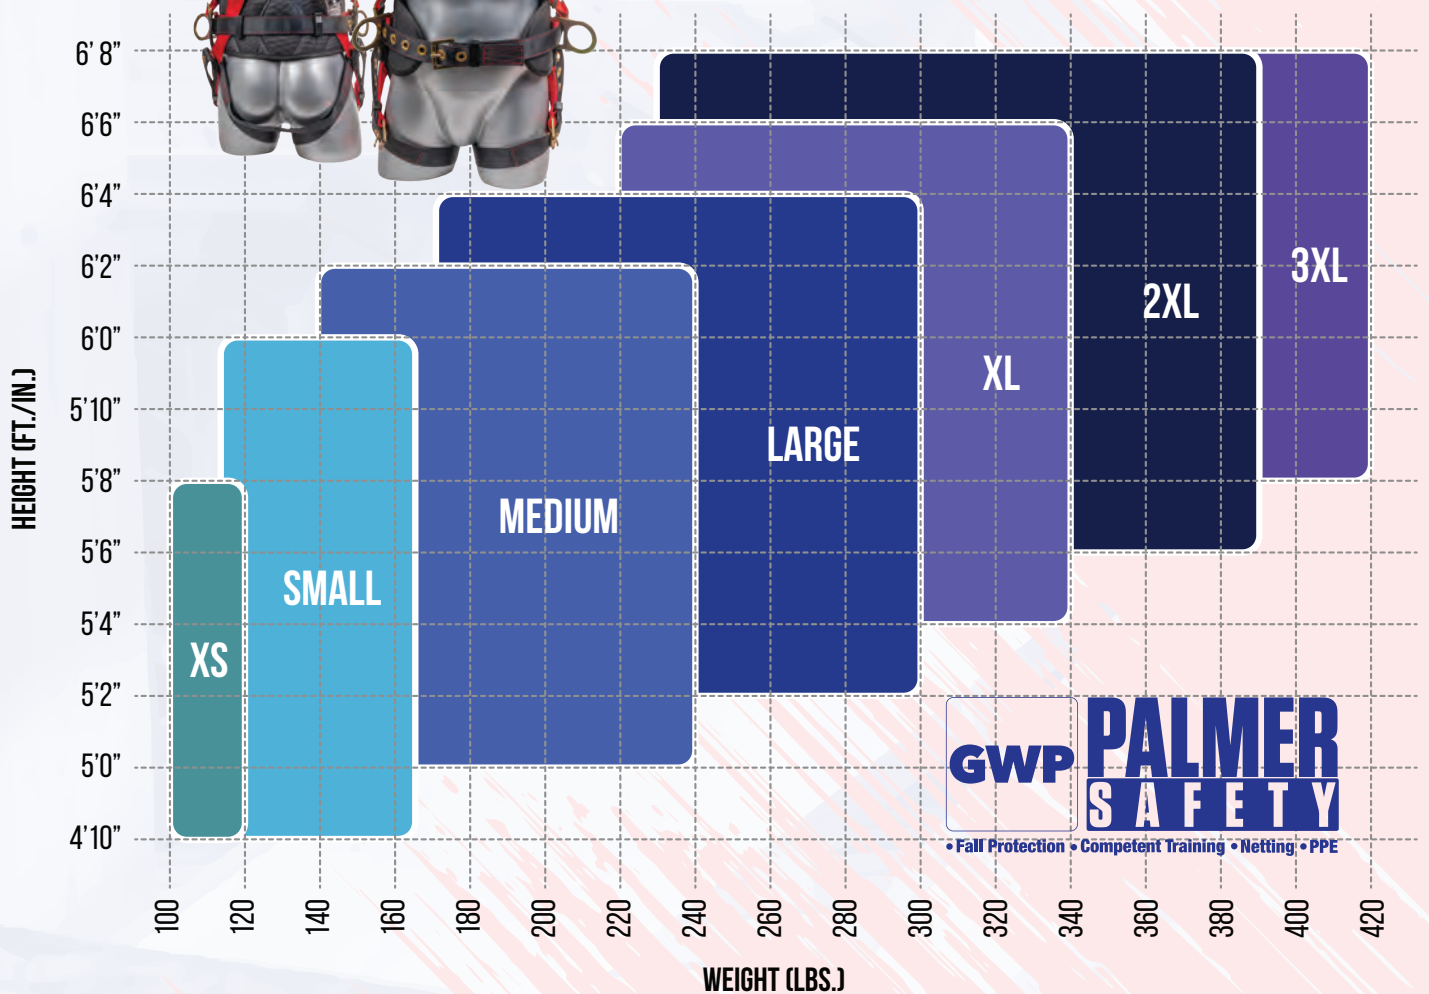

We take your safety seriously!

Greg Palmer

Harness/Vest Combo 3pt., Tongue and Buckle Leg Straps. Back D-Ring, Orange Color.

STINGRAY SERIES

Vest full body Harness, Three point. Back D-ring, Orange vest. Fall Indicators. Universal size. Meets or Exceeds ANSI Z359.11-2014. A10.32-2012.

Categories: Bodywear, Full Body Harnesses

Key Features Part #: H112100341

USER CAPACITY:	130 - 310 lbs.
DESIGN:	Dorsal D-ring for fall arrest Adjustable leg and torso Breakaway Lanyard Keepers
WEBBING:	Material: Polyester Width: 1.73 in.
METAL COMPONENT:	Alloy Steel
WEIGHT OF HARNESS:	4.21lbs.

H144 - Harness Kit Combo 3pt.

Harness/Lanyard Combo - 3pt H11110005 FBH with L111111 lanyard . With B0004 Bag. Meets or Exceeds ANSI Z359.11-2014. A10.32-2012.

Categories: Bodywear, Full Body Harnesses

Kit Part #: H144

Key Features Part #: H11110005

USER CAPACITY:	130 - 130 lbs.
DESIGN:	Dorsal D-ring for fall arrest; Adjustable leg straps; Breakaway Lanyard Keepers
WEBBING:	Material: Polyester Width: 1.73 in.
METAL COMPONENT:	Alloy Steel
WEIGHT OF HARNESS:	2.23 lbs.

Key Features Part #: L111111

DESIGN:	Single leg lanyard incorporated with shock absorber. Both ends of the lanyard equipped with steel snap hook.
WEBBING:	Material: Polyester Width: 0.98 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	2.72 lbs.

Rescue Trauma Strap

Trauma Strap step up relief pack.

Categories: Bodywear, Accessories

Key Features **Part #: T2200**

DESIGN:	Polyester webbing Formed pouch Loops on straps provide height adjustment
WEBBING:	Material: Polyester Width: 0.79 in.
WEIGHT:	0.24 lbs.

Let us know how we can help.

THE ABC'S OF FALL PROTECTION

A typical Personal Fall Arrest System (PFAS) incorporates three components, often described as the ABC's of fall protection. The anchorage/anchorage connector, body support and connecting device - when used together form a complete system for maximum worker protection. But don't forget the other important components of a comprehensive fall protection program: descent and rescue, education and fall protection for tools.

A

Anchorage

are a secure point of attachment. Anchorage connectors vary by industry, job, type of installation and structure. They must be able to support the intended loads and provide a sufficient factor of safety for fall arrest.

B

Body Support

harnesses distribute fall forces over the upper thighs, pelvis, chest and shoulders. They provide a connection point on the worker for the personal fall arrest system.

C

Connectors

such as energy-absorbing lanyards or self-retracting lifelines connect a worker's harness to the anchorage.

D

Descent and Rescue

devices are used to raise or lower a fallen injured worker to safety or retrieve them from a confined space.

E

Education

is essential. We offer a variety of training and consultative services to fit your needs.

F

Fall Protection for Tools

helps make work environments safer and more productive by reducing dropped object incidents.

Lanyard 6 ft. Shock Absorber, Small Hooks, Single Leg.

6 ft. Single leg lanyard, 3/4" hook, Yellow webbing, Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L111111

DESIGN:	Single leg lanyard incorporated with shock absorber. Both ends of the lanyard equipped with steel snap hook.
WEBBING:	Material: Polyester Width: 0.98 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	2.72 lbs.

6 ft. Double Lanyard, Blue Shock Absorber, Steel Snap Hooks.

6 ft. shock absorbing double lanyard with 3/4" hooks. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L111211

DESIGN:	Webbing lanyard incorporated with shock absorber.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	3.61 lbs.

Lanyard 6 ft. Shock Absorber, Rebar Hook, Single Leg.

6 ft. Single leg lanyard, 2-1/4" rebar hook. Yellow webbing. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L112111

DESIGN:	Single leg lanyard incorporated with shock absorber.
WEBBING:	Material: Polyester Width: 0.98 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	3.44 lbs.

Lanyard 6 ft. Shock Absorber, Rebar Hooks, Double Leg.

6 ft. Double leg lanyard, 2-1/4" rebar hooks. Yellow webbing. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L112211

DESIGN:	Double, Y shaped lanyard incorporated with shock absorber. One end of the shock absorber equipped with steel snap hook while the other sides of the lanyard are equipped with Steel rebar hooks.
WEBBING:	Material: Polyester Width: 0.98 in.
METAL COMPONENT:	Medium Carbon Steel
WEIGHT:	3.85 lbs.

Lanyard 6 ft. Internal Shock, Rebar Hook, Single Leg.

6 ft. single leg, internal shock absorber lanyard, 2-1/4" rebar hook. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L122133

DESIGN:	Polyester tubular webbing incorporated with energy absorber (6 ft.).
WEBBING:	Material: Polyester Width: 1.57 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	3.37 lbs.

Lanyard 6 ft. Internal Shock, Small Hook, Single Leg.

6 ft. single leg, internal shock absorbing lanyard, 3/4" hook. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L121133

DESIGN:	Polyester tubular webbing incorporated with energy absorber (6 ft.).
WEBBING:	Material: Polyester Width: 1.57 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	2.54 lbs.

Lanyard 6 ft. Internal Shock, Rebar Hooks, Double Leg.

6 ft. double leg lanyard, internal shock absorber, 2-1/4" rebar hooks. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L122233

DESIGN:	Y shaped polyester tubular webbing incorporated with energy absorber (6 ft.).
WEBBING:	Material: Polyester Width: 1.57 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	5.84 lbs.

Lanyard 6 ft. Internal Shock, Small Hooks, Double Leg.

6 ft. double leg, non-stretch, internal shock absorber lanyard, 3/4" snap hooks. Red webbing. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L121233

DESIGN:	Y shaped polyester tubular webbing incorporated with energy absorber (6 ft.).
WEBBING:	Material: Polyester Width: 1.57 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	4.4 lbs.

Adjustable lanyard 4 - 6 ft. Blue shock absorber, rebar hook.

4 - 6 ft. adjustable shock absorbing lanyard with 2-1/4" rebar hook. Meets or Exceeds ANSI Z359.13-2013.

Categories: Shock Absorbing Lanyards

Key Features Part #: L212111

DESIGN:	Webbing lanyard incorporated with shock absorber.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	3.61 lbs.

Adjustable lanyard 4 - 6 ft. Blue shock absorber, small hook.

4 - 6 ft. adjustable shock absorbing lanyard with 3/4" hook. Meets or Exceeds ANSI Z359.13-2013.

Categories: Shock Absorbing Lanyards

Key Features Part #: L211111

DESIGN:	Single leg lanyard incorporated with shock absorber.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	2.88 lbs.

Let us know how we can help.

Personal Shock Absorber Extension

Personal shock pack extension, 6 ft. or 12ft free fall, Blue in color. Limit arresting forces to 1350lbs. Meets or exceeds ANSI Z359.13-2013

Categories: Connectors, Shock Absorbing Lanyards

Key Features

DESIGN:

Either 6ft. or 12 ft. free fall shock pack
Forged steel snap hook for better strength

Part#	Size
LS63008	6 ft.
LS123008	12 ft.

Lanyard 3 ft. Shock Absorber, Small Hooks, Single Leg.

3 ft. single leg lanyard with small hooks. Meets or Exceeds ANSI Z359.13-2013.

Categories: Connectors, Shock Absorbing Lanyards

Key Features Part #: L311111

DESIGN:	Single leg lanyard incorporated with shock absorber.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	2.60 lbs.

D-Ring Extender 18 in. - Loop

18 in. 1-3/4" web single leg D-ring extender, loop on one end and large D-ring on opposite end. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Accessories

Key Features Part #: LE18134L

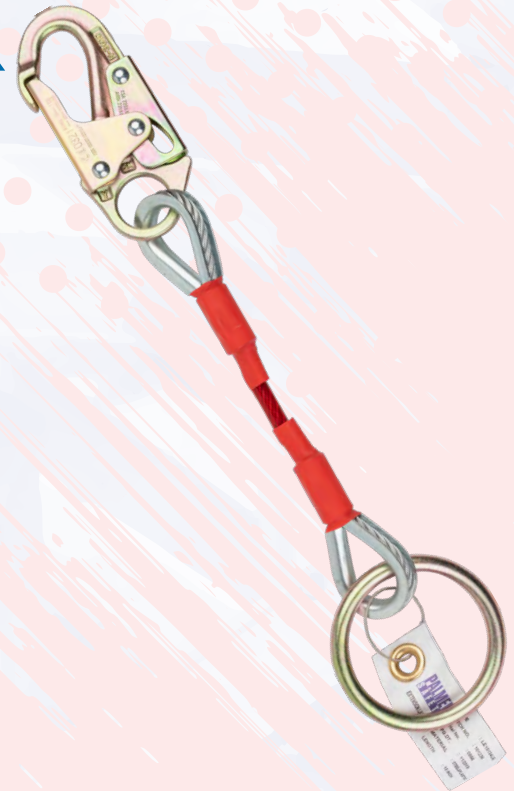

DESIGN:	Polyester webbing having a large D-ring at one end and a loop at other end.
WEBBING:	Material: Polyester Width: 1.75 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	0.4 lbs.

D-Ring Extender 18 in. - Cable

18in. D-ring extender with 0.25inch aircraft steel cable. With one forged snap hook & one O ring. Red vinyl coated Lifeline cable tested on a 0.005 radius sharpened steel edge. Meets or exceeds ANSI Z359.14-2012.

Categories: Connectors, Accessories

Key Features

Part #: LE18134LE

DESIGN:	Forged snap hook connected to a steel O-Ring by vinyl coated 0.25 in. aircraft steel cable
MATERIALS:	Red vinyl coated Lifeline cable
METAL COMPONENT:	Alloy steel 0.25inch air craft steel cable

D-Ring Extender 18 in.

18 in. D-ring extender, 3/4" snap hook on one end and large D-ring on opposite end. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Accessories

Key Features

Part #: LE18134

DESIGN:	Polyester webbing having steel stamped snap hook at one end and D-ring at other end.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	1.21 lbs.

Positioning Device Rebar

Rebar chain positioning device, one 2-1/4" swivel rebar hook on top and two 3/4" snap hooks on opposite ends. Meets or Exceeds ANSI Z359.3-2007.

Categories: Connectors, Positioning/Restraint

Key Features

Part #: A00004

DESIGN:	Double, Y shaped lanyard. This positioning device incorporates a high tensile strength chain and has swivel rebar hook.
CHAIN:	0.31" diameter link of chain, Grade 80; 24 inch
METAL COMPONENT:	Alloy steel
WEIGHT:	4.9 lbs.

Positioning Device Lanyard

4 - 6 ft. Adjustable restraint lanyard. Meets or Exceeds ANSI Z359.3-2007.

Categories: Connectors, Positioning/Restraint

Key Features

Part #: L00046

DESIGN:	Designed for work positioning.
WEBBING:	Material: Polyester Width: 1.18 in.
METAL COMPONENT:	Alloy Steel
WEIGHT:	2.29 lbs.

T2203

Tool Lanyards

T2201

Tool Lanyard with Screw Gate Carabiner or Twist Lock Carabiner. 15 lbs. tool rated. Meets or exceeds the ANSI/ISEA 121-2018 standard.

Categories: Bodywear, Accessories, Tool Lanyards

Key Features Part #: T2201 & T2203

DESIGN:	Convenient stretch lanyard for tool holding Provided with a lightweight carabiner for attachment to the user's belt
MATERIAL:	Webbing: 0.55 in. polyester Carabiner: High strength aluminum
STRENGTH:	Strength of tool lanyard is 15 lbs.
LENGTH:	51.18"
WEIGHT:	0.12 lbs.

Bags

Categories: Accessories

B0005

Key Features Part #: B0004 & B0005

B0004

Twin SRD Connector

DUAL LEG SRD CONVERTER - a Carabiner with SRD Plastic Connector. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Carabiners

Key Features Part #: SRL169

DESIGN:	Ultimate solution to attach 2 SRD's directly with user's harness with no additional connector required.
MATERIAL:	Alloy Steel
MINIMUM BREAKING STRENGTH:	23 kN (5170 lbs.)
FINISH:	Yellow chromate
WEIGHT:	0.38 lbs.

Twin SRD Steel Connector

Dual Leg SRD Converter. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Carabiners

Key Features Part #: SRL170

DESIGN:	Ultimate solution to attach 2 SRD's directly with user's harness with no additional connector required.
MATERIAL:	Alloy Steel
FINISH:	Yellow chromate
MINIMUM BREAKING STRENGTH:	23 kN (5170 lbs.)
WEIGHT:	0.37 lbs.

SRD 8' Lightweight Web with Small Hook.

MICROBEAST SERIES

8ft. Retractable web, plastic housing, 3/4" load indicator hook, 1/2" carabiner included. Blue housing. Min breaking strength 3000 lbs. Meets or Exceeds ANSI Z359.14-2014 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Web

Key Features Part #: **SRL221311**

DESIGN:	Equipped with steel Carabiner (C111) at swivel Anchorage with Load Indicator and Double Locking 3/4" Swivel Load Indicator Steel Snap Hook.
MINIMUM BREAKING STRENGTH:	3000 lbs.
CONFORMS:	Meets or Exceeds ANSI Z359.14-2014 Class B

SRD 8' Lightweight Web with Rebar Hook.

MICROBEAST SERIES

8ft. Retractable web, plastic housing, double locking 2-1/4" indicator hook, 1/2" carabiner included. Blue housing. Min breaking strength 3000 lbs. Meets ANSI Z359.14-2014 Class B

Categories: Devices, Self-Retracting Lifelines (SRL), Web

Key Features Part #: **SRL221321**

DESIGN:	Equipped with steel Carabiner (C111) at swivel Anchorage with Load Indicator and Double Locking 2-1/4" Swivel Load Indicator Steel Rebar Hook.
MINIMUM BREAKING STRENGTH:	3000 lbs.
CONFORMS:	Meets or Exceeds ANSI Z359.14-2014 Class B

SRD 9' Lightweight Web With Tie Back Hook

MICROBEAST SERIES

9 ft. Retractable web, Tie back hook, 1/2" carabiner. Blue housing. Max arresting distance 24", Average arresting force 1,350 lbs. Rated 420 lbs. Meets or Exceeds ANSI Z359.14-2014, ANSI Z359.14-2014 Class A SRL.

Categories: Devices, Self-Retracting Lifelines (SRL), Web

Key Features

Part #: SRL1421372

WEBBING:	9'(6+3) Dyneema(UHMWPE), 13/16" width
AVERAGE LOCKING SPEED:	4.5ft./sec.
AVERAGE ARRESTING FORCE:	1350 lbs.
MAX. ARRESTING DISTANCE:	24"
MAX. ARRESTING FORCE:	1800 lbs.
USER CAPACITY:	ANSI 310 lbs. & OSHA 420 lbs.
CONFORM TO THE NORM:	ANSI Z359.14-2014 Class A
WEIGHT:	3.22 lbs.

Twin SRD 9' Lightweight Web With Tie Back Hooks

MICROBEAST SERIES

Twin 9 ft. Retractable web, Tie back hook, 1/2" carabiner. Blue housing. Max arresting distance 24", Average arresting force 1,350 lbs. Rated 420 lbs. Meets or Exceeds ANSI Z359.14-2014, ANSI Z359.14-2014 Class A SRL.

Categories: Devices, Self-Retracting Lifelines (SRL), Web

SRL 10' Galvanized Cable With Small Hook

BEAST SERIES

10 ft. Retractable galvanized cable, swivel top plastic housing, built in shock-pack, 2-1/4" load indicator hook, 1/2" carabiner included. Blue housing. Min breaking strength 4500 lbs. Meets or Exceeds ANSI Z359.14-2012 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Cable

Key Features Part #: **SRL311321**

DESIGN:	Equipped with steel Carabiner (C111) at swivel Anchorage with Load Indicator and Double Locking 3/4" Swivel Load Indicator Steel Snap Hook.
MINIMUM BREAKING STRENGTH:	3000 lbs.
CONFORMS:	Meets or Exceeds ANSI Z359.14-2014 Class B

SRL 15' Galvanized Cable With Swivel Indicator Steel Rebar Hook

BEAST SERIES

15 ft. Retractable galvanized cable, swivel top plastic housing, 2-1/4" load indicator hook, 1/2" carabiner and 15ft. tagline included. Blue housing. Min breaking strength 3000 lbs. Meets or Exceeds ANSI Z359.14-2014 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Cable

Key Features Part #: **SRL511321**

PHYSICAL PARAMETERS:	Composite housing. Extremely compact, durable and lightweight plastic casing. Quick activating speed sensing brake systems. Galvanized steel wire rope 3/16".
LENGTH:	15 ft.
CABLE:	Material: Galvanized steel wire rope diameter of 3/16"
MINIMUM BREAKING STRENGTH:	4500 lbs.
USER CAPACITY:	ANSI 310 lbs. & OSHA 420 lbs.
CONFORM TO THE NORM:	Meets or Exceeds ANSI Z359.14-2012 Class B
WEIGHT:	8.26 lbs. ± 0.02 lbs.

SRL 11' Galvanized Cable With Small Hook

BEAST SERIES

11 ft. Retractable galvanized cable, swivel top plastic housing, 3/4" load indicator hook, 1/2" carabiner included. Blue housing. Min breaking strength 4500 lbs. Meets or Exceeds ANSI Z359.14-2012 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Cable

Key Features Part #: **SRL411311**

PHYSICAL PARAMETERS:	Composite housing. Extremely compact, durable and lightweight plastic casing. Has swivel anchorage eye at anchorage end. Swivel steel snap hook with load indicator at attachment end (gate strength 3600 lbs.). Galvanized steel wire rope 7/32".
LENGTH:	11 ft.
CABLE:	Material: Galvanized steel wire rope diameter of 3/16"
MINIMUM BREAKING STRENGTH:	4500 lbs.
USER CAPACITY:	ANSI 310 lbs. & OSHA 420 lbs.
CONFORM TO THE NORM:	Meets or Exceeds ANSI Z359.14-2012 Class B
WEIGHT:	5.61 lbs. ± 0.02 lbs.

SRL 11' Galvanized Cable With Swivel Indicator Steel Rebar Hook

BEAST SERIES

11 ft. Retractable galvanized cable, swivel top plastic housing, built in shock-pack, 2-1/4" load indicator hook, 1/2" carabiner included. Blue housing. Min breaking strength 4500 lbs. Meets or Exceeds ANSI Z359.14-2012 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Cable

Key Features Part #: **SRL411321**

PHYSICAL PARAMETERS:	Composite housing. Extremely compact, durable and lightweight plastic casing. Quick activating speed sensing brake systems. Galvanized steel wire rope 3/16".
LENGTH:	11 ft.
CABLE:	Material: Galvanized steel wire rope diameter of 3/16"
MINIMUM BREAKING STRENGTH:	4500 lbs.
USER CAPACITY:	ANSI 310 lbs. & OSHA 420 lbs.
CONFORM TO THE NORM:	Meets or Exceeds ANSI Z359.14-2012 Class B
WEIGHT:	6.13 lbs. ± 0.02 lbs.

SRL Web, Small Hook. Variable Lengths.

BEAST SERIES

11', 15', or 20' retractable web, swivel top composite housing, 3/4" load indicator hook, 1/2" carabiner included. Meets or Exceeds ANSI Z359.14-2012 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Web

Key Features

PHYSICAL PARAMETERS: Composite housing.
Swivel anchorage eye.

WEBBING: Material: Polyester
Width: 1"

Part#	Length	Weight
SRL421311	11'	3.52 lbs.
SRL521311	15'	5.12 lbs.
SRL621311	20'	5.42 lbs.

SRL 11' Web with Rebar Hook

BEAST SERIES

11' retractable web, swivel top composite housing, 2-1/4" load indicator hook, 1/2" carabiner included. Meets or Exceeds ANSI Z359.14-2012 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Web

Key Features Part #: SRL421321

PHYSICAL PARAMETERS: Composite housing.
Swivel anchorage eye.

LENGTH: 11 ft.

WEBBING: Material: Polyester
Width: 1"

WEIGHT: 4.35 lbs.

SRD Galvanized Cable with Small Hook. Variable Lengths.

BEAST SERIES

10', 15', 20', 30', 50', or 100' retractable galvanized cable, swivel top composite housing, 3/4" load indicator hook, 1/2" carabiner with tagline included. Meets or Exceeds ANSI Z359.14-2014 Class B.

Categories: Devices, Self-Retracting Lifelines (SRL), Cable

Key Features

PHYSICAL PARAMETERS: Composite housing. Swivel anchorage eye.

CABLE: 3/16" GAC

Part#	Length	Weight
SRL311311	10'	5.25 lbs.
SRL511311	15'	8.24 lbs.
SRL611311	20'	8.54 lbs.
SRL711311	30'	10.80 lbs.
SRL811311	50'	15.30 lbs.
SRL1311311	100'	28.49 lbs.

SRD LE Galvanized Cable with Small Hook. Variable Lengths.

BEAST EDGE SERIES

18', 30', or 50' leading edge retractable galvanized cable, swivel top composite housing, 3/4" load indicator hook, 1/2" carabiner. Meets or Exceeds ANSI Z359.14-2014 and ANSI Z359.14-2014 SRD-LE.

Categories: Devices, Self-Retracting Lifelines, Cable, SRL-LE

Key Features

PHYSICAL PARAMETERS: Composite housing. Swivel anchorage eye.

CABLE: 3/16" GAC

CONFORM TO THE NORM: Meets or Exceeds ANSI Z359.14-2014 SRD-LE

Part#	Length	Weight
SRL911212	18'	9.07 lbs.
SRL711212	30'	15.2 lbs.
SRL111212	50'	19.53 lbs.

SRD 12' Leading Edge Galvanized Cable with Small Hook

BEAST EDGE SERIES

12 ft. Leading edge single Retractable galvanized cable, 3/4" load indicator hook, 1/2" carabiner. Black housing. Max arresting dist. 54". Average arresting force 900 lbs. Meets ANSI Z359.14-2014, ANSI Z359.14-2014 SRL-LE.

Categories: Devices, Self-Retracting Lifelines, Cable, SRL-LE

Key Features Part #: **SRL411212**

PHYSICAL PARAMETERS: Composite housing. Extremely compact, durable and lightweight plastic casing. Stainless Steel and corrosion-resistant components. Quick activating speed sensing brake systems. Galvanized steel wire rope 7/32". For sharp edge application.

LENGTH:	12 ft.
CABLE:	Material: Galvanized steel wire rope diameter of 3/16"
USER CAPACITY:	ANSI 130-310 lbs.
CONFORM TO THE NORM:	Meets or exceeds ANSI/ASSE Z359.14-2014 Class B SRL-LE.
WEIGHT:	5.11 lbs. ± 0.02 lbs.

SRD 12' Leading Edge Galvanized Cable with 2-1/4" Steel Rebar Hook

BEAST EDGE SERIES

12 ft. Leading edge single Retractable galvanized cable, 2-1/2" Galvanized rebar hooks, 1/2" carabiner. Black housing. Max arresting dist. 54". Average arresting force 900 lbs. Meets or Exceeds ANSI Z359.14-2014, ANSI Z359.14-2014 SRL-LE.

Categories: Devices, Self-Retracting Lifelines, Cable, SRL-LE

Key Features Part #: **SRL411222**

PHYSICAL PARAMETERS: Composite housing. Extremely compact, durable and lightweight plastic casing. Stainless Steel and corrosion-resistant components. Quick activating speed sensing brake systems. Galvanized steel wire rope 7/32". For sharp edge application.

LENGTH:	12 ft.
CABLE:	Material: Galvanized steel wire rope diameter of 3/16"
USER CAPACITY:	ANSI 130-310 lbs.
CONFORM TO THE NORM:	Meets or exceeds ANSI/ASSE Z359.14-2014 Class B SRL-LE.
WEIGHT:	5.89 lbs. ± 0.02 lbs.

SRL-LE 9' Galvanized Cable with Various Hooks

MICROBEAST EDGE SERIES

SRD 9' Leading Edge Single Galvanized Cable with either a Small Hook, Steel Rebar Hook, or Aluminum Rebar Hook, 9' retractable galvanized cable, swivel top composite housing, 3/4" load indicator hook, 1/2" carabiner included. Black housing. Meets or exceeds ANSI/ASSE Z359.14-2014 Class B SRL-LE.

Categories: Devices, Self-Retracting Lifelines, Cable, SRL-LE

Key Features

PHYSICAL PARAMETERS:

Composite housing; Extremely compact, durable and lightweight plastic casing; Has swivel anchorage eye at anchorage end; Galvanized steel wire rope 7/32".

LENGTH: 9 ft.

CABLE: Material: Galvanized steel wire rope diameter of 7/32"

MINIMUM BREAKING STRENGTH: 3300 lbs.

USER CAPACITY: ANSI 130-310 lbs.

CONFORM TO THE NORM: Meets or exceeds ANSI/ASSE Z359.14-2014 Class B SRL-LE.

Part#	Length	Hook Type	Weight

Palmer Service Center

Palmer Safety has relationships with **certified fall protection installers** that will be brought in for **engineering services**. We combine that with relationships with our suppliers to offer **height safety engineered services**. Our goal is to help provide an overall approach to fall safety.

Self Retracting Devices repair and re-certification is a major service issue to our end users. We offer this service not as a profit center but to allow our customers to use Palmer Safety devices longer at a lower service cost. With two repair centers developed we try to limit time spent waiting for shipments to arrive. Our overall service goals will be to have regional repair centers to limit wait times on returning SRD's.

Inspection Services are offered as well when you chose Palmer Safety. Our goal in offering this service is to help our end users become OSHA compliant with regards to completing company wide inspections. This is free of charge as long as you are a Palmer Safety customer. We inspect every product in your fleet and provide an overall picture of where your program is in terms of compliance. The ultimate decision on whether or not to take out of service is still up to your competent person authorized by your safety department. We are here to help lessen the burden on how and where to start.

Rental services are being developed for our large industrial contractor base. These programs will be managed through our key distribution partners with full Palmer Safety support.

We take your safety seriously!

Cross Arm Strap

3" wide (variable lengths available) with large D-ring and small D-ring. Meets or Exceeds ANSI Z359.18-2017 and OSHA.

Categories: Anchorage, Multi-Purpose

Key Features

DESIGN:	1-3/4" wide polyester webbing stitched with 3" webbing on the back for extra protection.
WEBBING:	Material: Polyester
STITCHING THREAD:	Material: High-tenacity polyester
METAL COMPONENT:	Alloy Steel, Yellow Chromate
VITAL TEST COMPLIANCE:	Static Strength: 5000 lbs.

Part#	Length
A36806	3'
A48806	4'
A72806	6'
A96806	8'
A120806	10'
A144806	12'
A168806	14'
A192806	16'

Anchor Strap

Disposable concrete anchor strap is attached to a structure capable of supporting 5000 lbs. 1-3/4" wide strap (variable lengths available) with a loop on one end, large D-Ring or another loop on the other end, and a full length wear pad. Red strap. Meets or Exceeds ANSI Z359.18-2017 and OSHA.

Categories: Anchorage, Concrete

Key Features

DESIGN:	1-3/4" wide polyester webbing with one end having a textile loop and the other side a D-ring or a textile loop
WEBBING:	Material: Polyester
STITCHING THREAD:	Material: High-tenacity polyester
D-RING:	Yellow Chromate
VITAL TEST COMPLIANCE:	Static Strength: 5000 lbs.

Part#	Type	Length	Part#	Type	Length
A4125000	D-Ring	4'	A4125001	2 Loops	4'

Anchor Cable Cross Arm

4' or 6' X 1/4" vinyl coated I-beam cable cross-over strap with large ring and small ring for pass-through. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Multi-Purpose

Key Features

DESIGN:	Made of PVC coated Galvanized steel
CABLE:	7X19 GAC
VITAL TEST COMPLIANCE:	Static Strength: 5000 lbs.

Part#	Length	Weight
AC48408	4'	1.10 lbs
AC72408	6'	1.42 lbs

Anchor Cable With Hook

4' or 6' X 1/4" vinyl coated cable I-beam crossover strap, ring on one end and locking snap hook on opposite end. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Multi-Purpose

Key Features

DESIGN:	Made of PVC coated Galvanized steel
CABLE:	7X19 GAC
VITAL TEST COMPLIANCE:	Static Strength: 5000 lbs.

Part#	Length	Weight
ACH48407	4'	1.82 lbs.
ACH72407	6'	2.14 lbs.

Beam Anchor Trolley

Beam Anchor Trolley. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, I-Beam

Key Features Part #: A00008

DESIGN:	Anchor connector installed on flange of beams.
COMPATIBLE WITH MIN FLANGE WIDTH:	3.14"
COMPATIBLE WITH MAX FLANGE WIDTH:	9.84"
MATERIAL:	Aluminum Alloy and Stainless steel.
MINIMUM BREAKING STRENGTH:	5000 lbs.
WEIGHT:	8.59 lbs.

Beam Anchor

Beam Anchor, 3" - 14" flange adjustable. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017 Type A.

Categories: Anchorage, Steel

Key Features Part #: A3145001

STRENGTH:	5000 lbs.
MATERIAL:	Aluminum Alloy and Brass
MAX USER WEIGHT:	310 lbs. / 140kg
CONFORM TO NORM:	Meets or Exceeds Z359.18-2017 Type A

Anchor Sliding Super Beamer

Super Sliding Beam Anchor, 12" - 30" flange adjustable. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Steel

Key Features Part #: A12305000

STRENGTH:	5000 lbs.
MATERIAL:	Bronze / Aluminum / Yellow Chromate Steel
MAX USER WEIGHT:	310 lbs.
WEIGHT:	7.24 lbs.

Anchor Sliding Beamer

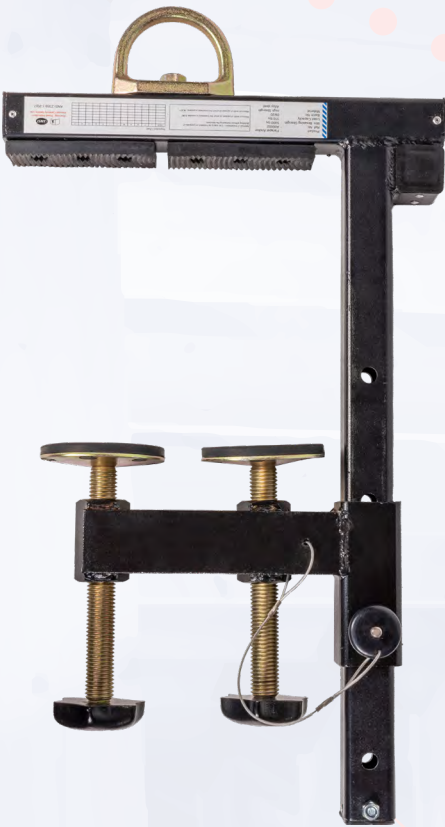

Super Slider 5,000 lb. Beam Anchor. A removable and reusable sliding I-beam anchor. Easy to install and remove. This anchor connector is designed to easily glide along the beam while trailing the worker. Adjustable from 3"-12" with a minimum flange thickness of 1/4". Meets or Exceeds ANSI Z359.18-2017, OSHA 1926.502.

Categories: Anchorage, Steel

Key Features Part #: A3145000

STRENGTH:	5000 lbs.
MAX USER WEIGHT:	310 lbs.
MATERIAL:	Aluminum / Yellow Chromate Steel
WEIGHT:	3.52 lbs.

Parapet Anchor

Parapet Anchor. Galvanized Steel. 2.36" - 14.17" parapet range. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Roof

Key Features **Part #: A00002**

DESIGN:	Anchor suitable to be installed on the parapet of a building such that the anchor point lies at the top on the outside facade of the building.
MIN. WIDTH OF THE PARAPET ON WHICH INSTALLATION IS POSSIBLE:	2.36 in.
MATERIAL:	High strength alloy steel
FINISH:	Silver/yellow galvanized
SYSTEM STRENGTH:	Greater than 25 kN
WEIGHT:	19.84 lbs.

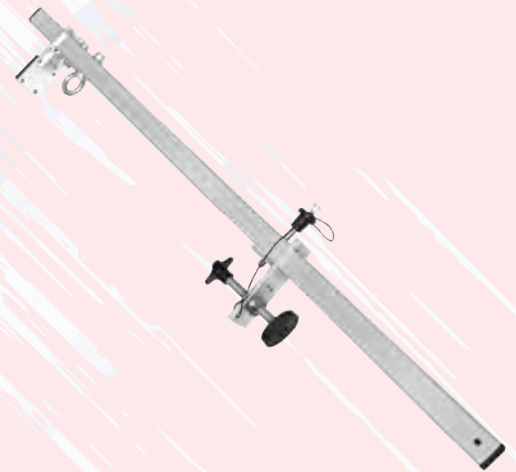

Anchor Door Jamb

Door Jamb Anchor, Aluminum construction. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Multipurpose

Key Features **Part #: A00003**

DESIGN:	Door/window anchor is compressed against the door or window frame "jamming" itself between the two vertical sides.
MINIMUM OPENING:	23.62"
MAXIMUM OPENING:	49.21"
MATERIAL:	High strength aluminum alloy
FINISH:	Anodized
WEIGHT:	12.47 lbs.
MINIMUM BREAKING STRENGTH:	5000 lbs.

3/4" Reusable Concrete Wedge Anchor 5000 lbs.

Reusable Concrete Anchor 3/4" Hole. 5000 lbs. Meets OSHA 1926-502, ANSI Z359.1, ANSI A10.32.

Categories: Anchorage, Concrete

Key Features Part #: **A345000**

DESIGN:	Anchor is capable of being installed on concrete having minimum thickness of 5.9" through a predefined hole of 3/4" diameter.
MATERIAL:	Cable: Galvanized steel 0.24" diameter
MINIMUM BREAKING STRENGTH:	5000 lbs.
WEIGHT:	0.8 lbs.

Girder Steel Anchor

Girder Steel Anchor. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Steel

Key Features Part #: **A00006**

DESIGN:	Girder steel anchor is a removable/reusable anchor that can be mounted on solid steel structures, girders and steel I-Beams.
USAGE:	For use as an anchorage point for fall protection equipment
MATERIAL:	Eye nut and Main body: Alloy steel. Outer Body: Stainless steel molded with polymer.
RECOMMENDED BOLT HOLE SIZE:	0.80" to 1.18"
MINIMUM BREAKING STRENGTH:	5000 lbs.
MAXIMUM THICKNESS OF THE STRUCTURE ON WHICH INSTALLATION POSSIBLE::	1.57"
WEIGHT:	1.21 lbs.

Single Point Steel Anchor

Steel point anchor. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Steel

Key Features **Part #: A00001**

DESIGN:	Single point anchor is designed to be fixed on walls, ceilings, roof tops or steel structures.
FINISH:	Yellow Chromate
MINIMUM BREAKING STRENGTH:	5000 lbs.
WEIGHT:	0.84 lbs.

100 ft. Rope Horizontal Lifeline System

Horizontal Life line system two man or four man. Covers span length of 15 ft. to 100 ft. Min Breaking Strength 5620 lbs. Kernmantle rope of dia 5/8". Comes complete with carabiners, rope tensioner with tool, 6 ft. cross arm straps and carrying bag. Meets OSHA 1926.502

Categories: Horizontal Lifeline

Key Features **Part #: A300200**

DESIGN:	<ul style="list-style-type: none"> • Horizontal Lifeline that allows up to (2) workers • Adjustable up to 15 to 100' • Includes (2) 6' cross arm straps • Preassembled and in backpack for easy transport / setup / take down / storage • For Installation: Requires (2) 5,000 lbs. anchor points
MATERIAL:	• 5/8" Kernmantle rope
SYSTEM BREAKING STRENGTH:	5620 lbs.

Key Features **Part #: A300400**

DESIGN:	<ul style="list-style-type: none"> • Horizontal Lifeline that allows up to (4) workers • Adjustable up to 15 to 100' • Includes (2) 6' cross arm straps • Preassembled and in backpack for easy transport / setup / take down / storage • For Installation: Requires (2) 5,000 lbs. anchor points
MATERIAL:	• 5/8" Kernmantle rope
SYSTEM BREAKING STRENGTH:	5620 lbs.

60 ft. Cable Horizontal Lifeline

Horizontal Lifeline system that allows up to (2) workers adjustable to a length of 60'. System Breaking Strength 5000 lbs. Galvanized cable with a 5/8" diameter. Compliant with all applicable: OSHA 1926 Subpart M, OSHA 1910, ANSI Z359, ANSI A10.32

Categories: Horizontal Lifeline

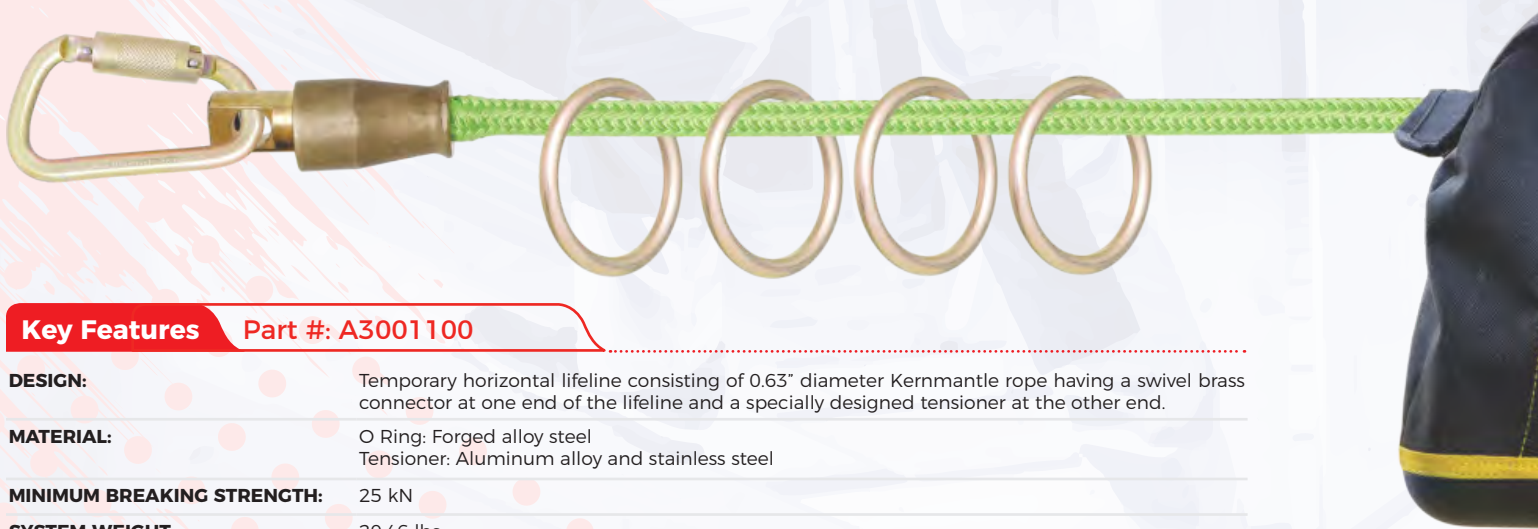

Key Features Part #: A60160

DESIGN:	<ul style="list-style-type: none"> • Horizontal Lifeline that allows up to (2) workers • Adjustable up to 60' • Includes (2) 6' vinyl coated cable chokers w/ Pass Through rings • Preassembled and in backpack for easy transport / setup / take down / storage • For Installation: Requires (2) 5,000 lbs. anchor points
MATERIAL:	<ul style="list-style-type: none"> • 3/8" Galvanized cable • Stainless Steel Absorbinator • Galvanized turnbuckle • Galvanized fist grips
SYSTEM BREAKING STRENGTH:	5000 lbs.
MAX USER WEIGHT:	420 lbs. each worker
WEIGHT:	32.2 lbs. with bag
NORM:	Compliant with all applicable: OSHA 1926 Subpart M, OSHA 1910, ANSI Z359, ANSI A10.32

Rope 4-Person HLL System

Horizontal Lifeline system. Covers span length of 15' to 100'. Min Breaking Strength 5620 lbs. Kernmantle rope of diameter 5/8". Comes complete with carabiners, rope tensioner, cross arm straps, and carrying bag. Meets or Exceeds ANSI A10.32-2012 Section 4.4.

Categories: Horizontal Lifeline

Key Features Part #: A3001100

DESIGN:	Temporary horizontal lifeline consisting of 0.63" diameter Kernmantle rope having a swivel brass connector at one end of the lifeline and a specially designed tensioner at the other end.
MATERIAL:	O Ring: Forged alloy steel Tensioner: Aluminum alloy and stainless steel
MINIMUM BREAKING STRENGTH:	25 kN
SYSTEM WEIGHT:	20.46 lbs.

Let us know how we can help.

100 ft. Cable Horizontal Lifeline

Horizontal Lifeline system that allows up to (2) workers adjustable to a length of 100'. System Breaking Strength 5000 lbs. Galvanized cable with a 5/8" diameter. Compliant with all applicable: OSHA 1926 Subpart M, OSHA 1910, ANSI Z359, ANSI A10.32

Categories: Horizontal Lifeline

Key Features **Part #: A100160**

DESIGN:	<ul style="list-style-type: none">• Horizontal Lifeline that allows up to (2) workers• Adjustable up to 100'• Includes (2) 6' vinyl coated cable chokers w/ Pass Through rings• Preassembled and in backpack for easy transport / setup / take down / storage• For Installation: Requires (2) 5,000 lbs. anchor points
MATERIAL:	<ul style="list-style-type: none">• 3/8" Galvanized cable• (2) Stainless Steel Absorbinators• Galvanized turnbuckle• Galvanized fist grips
SYSTEM BREAKING STRENGTH:	5000 lbs.
MAX USER WEIGHT:	420 lbs. each worker
WEIGHT:	45.4 lbs. with bag
NORM:	Compliant with all applicable: OSHA 1926 Subpart M, OSHA 1910, ANSI Z359, ANSI A10.32

Vertical Co-Polymer Rope Lifeline

Variable Length Lifeline 5/8" co-polymer rope, 3/4" hook on one end. Meets or Exceeds ANSI Z359.15-2014.

Categories: Vertical Lifelines

Key Features

DESIGN: This lifeline is made up of high strength co-polymer twisted rope. The diameter of the rope is 5/8". It is provided with snap hook spliced at one end or both ends.

STEEL SNAP HOOK: Made of Alloy Steel
 Silver or golden yellow galvanized
 Breaking strength: 5000 lbs.

LENGTHS: 50', 100' or 150'

1 Snap Hook		2 Snap Hooks	
Part#	Length	Part#	Length
V503201	50'	V503202	50'
V1003201	100'	V1003202	100'
V1503201	150'	V1503202	150'

Termination Plate

This termination plate can be used with both Kernmantle rope between 7/16" and 3/4" (11mm-19mm) and 5/8" to 3/4" (16mm-19mm) three strand rope.

Categories: Vertical Lifelines

Part Number: RETP

Roofing Kit

Roofing kit. 5 pt. Harness, 50 ft. lifeline with attached rope grab with shock absorbing lanyard and 3/4" hooks. Roof anchor, Meets or Exceeds ANSI Z359.11-2014, Z359.18-2017, Z359.13-2013, Z359.15-2014.

Categories: Kits, Roofer's Kits

Key Features Part #: V5501

USER CAPACITY:	130 – 310 lbs. (59 -140 kg)
DESIGN:	One dorsal attachment D-ring for fall arrest. Adjustable torso.
WEBBING:	Material: Polyester Width: 1.73 in.
METAL COMPONENT:	Alloy steel
WEIGHT:	15.8 lbs.

Reusable Roof Anchor

Reusable Roof Anchor. Steel with stamped D-ring. Min breaking strength 5000 lbs., Meets or Exceeds ANSI Z359.18-2017.

Categories: Anchorage, Roof

Key Features Part #: A00150

DESIGN:	An ideal anchorage device to be fixed on wooden beams used in roofing. The D-ring can be safely used as an anchor point.
MATERIAL:	High strength alloy steel
FINISH:	Powder coated or Zinc plated
MINIMUM BREAKING STRENGTH:	5000 lbs.
WEIGHT:	2.39 lbs.

Rope Grab 5/8" Diameter

5/8" Large Bail Yellow Chromate Finish Rope Grab. Meets or Exceeds ANSI Z359.15-2014.

Categories: Rope Grabs

Key Features Part #: C0850

DESIGN:	Trailing Rope Grab moves along with the user climbing up or down and locks in case of a fall.
MATERIAL:	High strength alloy steel
FINISH:	Yellow chromate
WEIGHT:	1.21 lbs.

Rope Grab Attached Lanyard 2'

5/8" Large Bail Yellow Chromate Finish Rope Grab, attached 2 ft. shock absorbing web lanyard and 3/4" hook. Meets or Exceeds ANSI Z359.15-2014 and ANSI Z359.13-2013.

Categories: Rope Grabs

Key Features Part #: C3002

DESIGN:	Rope grab with 2' lanyard
WEBBING:	Material: Polyester Width: 1.73 in.
METAL COMPONENT:	Alloy Steel

Hook Carabiner .67"

Steel twist lock, 5/8" gate opening. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Carabiners

Key Features

Part #: C111

DESIGN:	Gate opening 0.67". Oval shaped carabiner made of round steel bar.
FINISH:	Yellow chromate
MATERIAL:	Alloy Steel
MINIMUM BREAKING STRENGTH:	5000 lbs.
GATE FACE STRENGTH:	3600 lbs.
GATE SIDE STRENGTH:	3600 lbs.; Minor axis: 3600 lbs.
WEIGHT:	0.35 lbs.

Hook Carabiner .84"

Steel twist lock, 13/16" gate opening. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Carabiners

Key Features

Part #: C113

DESIGN:	Gate opening 0.84". Oval shaped carabiner made of 0.43" diameter round bar.
FINISH:	Yellow chromate
MATERIAL:	Alloy Steel
MINIMUM BREAKING STRENGTH:	5000 lbs.
GATE FACE STRENGTH:	3600 lbs.
GATE SIDE STRENGTH:	3600 lbs.; Minor axis: 3600 lbs.
WEIGHT:	0.58 lbs.

Hook Carabiner 1.97"

Yellow chromate finish, forged steel twist lock gate, 1-15/16" gate opening. Gate Strength 3600 lbs. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors, Carabiners

Key Features

Part #: C134

DESIGN:	Gate opening 1.97". Steel tower hook made of 0.55" diameter round bar.
MATERIAL:	Alloy Steel
FINISH:	Yellow chromate
MINIMUM BREAKING STRENGTH:	5000 lbs.
GATE FACE STRENGTH:	3600 lbs.
GATE SIDE STRENGTH:	3600 lbs.; Minor axis: 3600 lbs.
WEIGHT:	1.65 lbs.

Hook Rebar Scaffold

Rebar scaffold hook. Alloy Steel. Min breaking strength 5000 lbs. Meets or Exceeds ANSI Z359.12-2009.

Categories: Connectors

Key Features

Part #: S00140

DESIGN:	Gate opening 2.36" Auto closing and auto locking type steel rebar scaffold hook.
PROCESS:	Forged
MATERIAL:	Alloy Steel
FINISH:	Yellow chromate
MINIMUM BREAKING STRENGTH:	5000 lbs.
GATE FACE STRENGTH:	3600 lbs.
GATE SIDE STRENGTH:	3600 lbs.
WEIGHT:	1.8 lbs.

PALMER SAFETY ON-SITE ROAD SHOW DEMONSTRATION

Palmer Safety provides **FREE** on-site fall protection demonstrations. Our specialized van and drop testing trailers offer hands on education and demonstrations with the latest fall protection practices and equipment. Visit us at www.palmersafetyus.com/training or call us at **(504) 733-1808** to schedule a demonstration and training.

Fall Protection Awareness Training Includes:

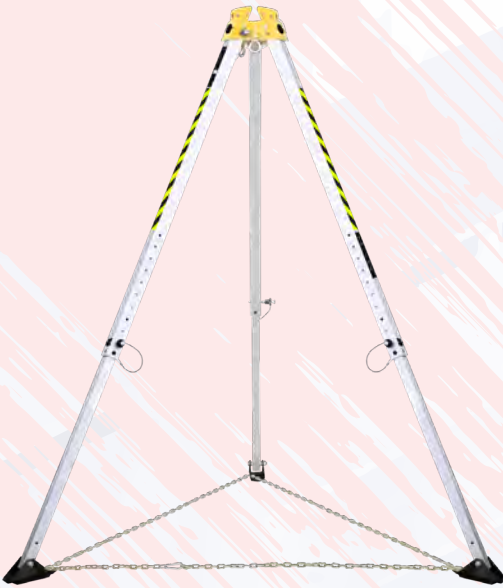

- Regulatory Standards Overview—OSHA and ANSI
- Fall Protection Applications—Fall Arrest, Travel Restraint, and Work Positioning Systems
- Product Selection—Body Harnesses, Lanyards, Anchorage Connectors, Anchor Points
- Inspection, Care and Use
- Calculating Fall Distance
- Product Drop Test Demonstrations
- Rescue Planning

Fall Protection Training Courses We Offer:

- Fall Protection Competent Training
- Fall Protection Competent Refresher Training
- Fall Protection Awareness Training
- Fall Protection Equipment Inspection Training
- Confined Space Awareness & Training
- Fall Protection Program Development
- EM 385-1-1 24 Hour Fall Protection Course
- Fall Protection Rescue & Program Training

Confined Space Tripod

Confined Space Tripod – 7 ft. Max load 1100 lbs. Adjustable height 4'4" – 7' Meets or Exceeds ANSI Z359.4-2013.

Categories: Devices, Confined Space

Key Features Part #: CS717

DESIGN:	Adjustable height from 4'4" to 7' from ground level.
LOAD CAPACITY	310 lbs.
TRIPOD LEGS:	Material: Prime quality aluminum alloy Finish: Anodized
HEAD:	Material: Prime quality aluminum alloy Finish: Powder coated
LOCKING PINS:	Material: Prime quality aluminum alloy eye bolt and stainless steel locking pin Finish: Deburred and polished
VITAL TEST COMPLIANCE:	Static Strength: 25 kN (5000 lbs.) for 1 minute
WEIGHT:	41.9 lbs.

Confined Space Winch

Confined Space Winch, galvanized cable, 3/4" hook. Max load 300 lbs. Personnel or material. Meets or Exceeds ANSI Z359.1-1992, ANSI Z117.1-1995. **NOTE:** CS2517 Bracket Available Separately.

Categories: Devices, Confined Space

Key Features Part #: CS817

DESIGN:	Material or man lifting rescue winch. Galvanized steel wire rope of 3/16" & length of 60' maximum. Equipped with Swivel Steel Snap Hook (as per ANSI Z359.12-2009 gate strength 3600 lbs.) as connector. Handle rotating mechanism for lifting or lowering.
BODY:	Material: Galvanized steel
RATED LOAD CAPACITY:	300 lbs.
VITAL TEST COMPLIANCE:	Static Strength: Tested at 3100 lbs.
WEIGHT:	20.61 lbs.

Confined Space Spreader Bar

Confined Space Spreader Bar. Meets or Exceeds ANSI Z359.12-2009. A10.32-2012.

Categories: Devices, Confined Space

Key Features Part #: CS Spreader Bar

DESIGN:	Designed to be used with a Winch and Davit Arm or Tripod to raise and lower a worker in an upright position into and out of a confined space. The Spreader Bar also functions as a tool for descent and rescue operations. Simply lower into the confined space to allow worker to attach to the lifting yokes and pull worker out of the confined space.
USAGE:	Features two double locking snap hooks. CS Spreader Bar connects to Winch cable and worker's shoulder D-rings. Steel bar is encased in webbing. Keeps worker comfortably suspended upright.

SRLD 60' Galvanized Cable with Small Hook.

Self Retractable Lifeline Retrieval System for tripod. Galvanized cable, 3/4" load indicator hook, 1/2" carabiner. Min breaking strength 3400 lbs. Meets or Exceeds ANSI Z359.14-2014 Class B, ANSI Z359.14-2014 SRL-R.

Categories: Self-Retracting Lifelines (SRL), Cable, Confined Space

Key Features Part #: SRL1211412

DESIGN:	Retrieval fall arrester block in polymer casing coupled with hoisting winch to enable easy retrieval of victim.
PHYSICAL PARAMETERS:	Durable plastic housing.
LENGTH:	60 ft.
CABLE:	3/16" diameter GAC
CONFORM TO THE NORM:	Meets or Exceeds ANSI Z359.14-2014 SRDR and OSHA Compliant
WEIGHT:	20.3 lbs.

Palmer Rescue Kits

Premium Palmer Rescue Kit

Part #: RRDS

5 to 1 Rescue kit complete with 160 feet of rope included. With a heavy duty waterproof bag for storage. The kit includes an integral braking system in case of accidental release of rope by rescuer.

Integral Braking System

Standard Palmer Rescue Kit

Part #: RRDS1

5 to 1 Rescue kit complete with 160 feet of rope included. With a heavy duty waterproof bag for storage.

Accessories

Rescue Pole

Part #: RRDS Pole

12' telescopic pole with an aluminum rebar hook. Comes with a carrying case.

Rope Ascender - Right

Part #: Ascender 1

Rope ascender designed for right hand usage.

Rope Ascender - Left

Part #: Ascender 2

Rope ascender designed for left hand usage.

Guardrail System

Meets or exceeds all OSHA 1910 General Industry Standards and OSHA 1926 Subpart M Construction Standard.

ALWAYS assemble and use Guardrail System according to instructions provided with equipment by the manufacturer.

Materials: powder-coated steel or galvanized steel.

Fall Prevention: Guardrail System may be used in Fall Prevention applications ONLY. Fall Prevention Systems are placed around the leading edges of any and all fall hazards to prevent a worker from going over an edge, and may be used in substitute of Fall Protection or safety netting systems. Installation requirements for Guardrail System set forth in product instruction manual MUST be adhered to. Personal Fall Arrest, Work Positioning, Climbing, Rescue, and any other systems must NEVER be connected to Fall Prevention Systems.

MAXIMUM permitted roof pitch is 1/12 (5°).

Toeboards must be 2" x 4" construction grade lumber. Baseplates must be at least 24" from the edge of any opening or leading edge hazard.

An outrigger is a guardrail installed perpendicular to a continuous run. ALWAYS use outriggers at BOTH ends of any interruption in a Guardrail System, and at BOTH ends of a continuous Guardrail System. There is no limit on the maximum length of a continuous Guardrail System.

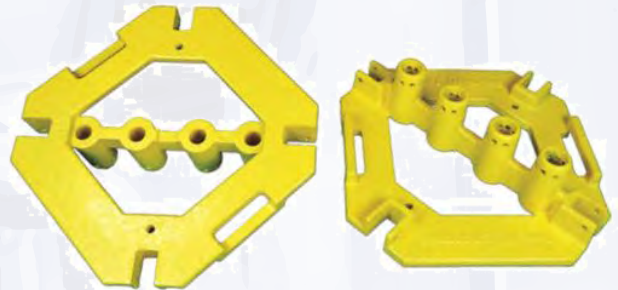

GUARDRAIL6, GUARDRAIL8, GUARDRAIL10, GUARDRAIL12

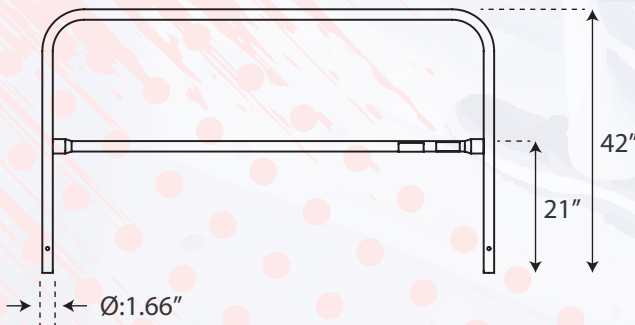

GUARDRAIL2WBASE

GUARDRAILKNUCKLE

GUARDRAIL4WBASE

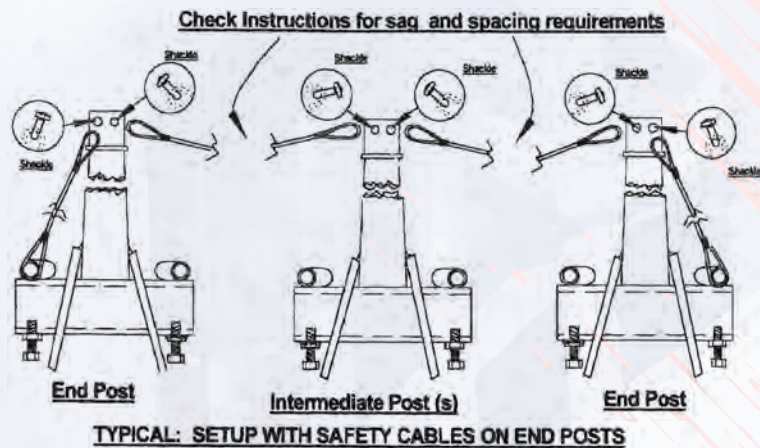

Part#	Size	Description
GUARDRAIL6	42"H x 6'L	6' Guardrail
GUARDRAIL8	42"H x 8'L	8' Guardrail
GUARDRAIL10	42"H x 10'L	10' Guardrail
GUARDRAIL12	42"H x 12'L	12' Guardrail
GUARDRAILKNUCKLE	Used with Palmer Safety Guardrail System. Galvanized Steel, Complete with a set of two screws.	
GUARDRAIL2WBASE	10"W x 30"L	Guardrail Baseplate 2 Way
GUARDRAIL4WBASE	21-1/2"W x 21-1/2"L	Guardrail Baseplate 4 Way

BeamGuard HLL Stanchion

The Palmer Safety BeamGuard HLL Stanchion can be used in combination with any of Palmer Safety's rope HLL kits and cable HLL kits. Able to accommodate up to two workers between each set of stanchions (maximum stanchion spacing is 60'), the BeamGuard has three base size options to allow for installation onto a variety of beam sizes. A Pass-Through Top Accessory is also available to facilitate 100% tie-off when transitioning between spans.

Base size compatibility:

- Small: Thickness: Up to 1.25". Width: 4" - 13.75"
- Intermediate: Thickness: Up to 2.125". Width: 4" - 19.75"
- Large: Thickness: Up to 3.375". Width: 4" - 31.75"

USER CAPACITY: 130 - 420 lbs.

- DESIGN:**
- Durable and reusable
 - Use in combination with rope or cable HLL system
 - 300' recommended maximum span length
 - Install HLL system either parallel with or perpendicular to I-beam

MATERIAL: Powder-coated steel

MIN. BREAKING STRENGTH: 5000 lbs.

CONFORMS TO: Meets or Exceeds ANSI Z359.1-07, ANSI A10.32-12, OSHA 1926 Subpart M, OSHA 1910

Part#	Size	Description
BEAMG-S	18" Threaded Rods	Small Flange Hook
BEAMG-M	24" Threaded Rods	Medium Flange Hook
BEAMG-L	36" Threaded Rods	Large Flange Hook
BEAMG-PASS	Pass-Through Top Accessory	

Training Classes Available

When elevated work hazards are present, Fall Protection equipment and Fall Protection systems play an essential role in safely executing work activities.

Palmer Safety is a full-service Fall Protection and safety training organization that strives to be your source for solutions to executing elevated work safely. In doing so, we set ourselves apart from our competition.

With locations in New Orleans, Houston, New York and California, Palmer Safety can fully service your Fall Protection needs. We continue to innovate as we pursue leading edge products. Palmer Safety offers high performance, high quality products along with an experienced and knowledgeable Technical Support Team.

The buying decision should always consider the value of customer service and product support that is part of the Palmer Safety experience.

We take Success in Safety seriously!

Courses Offered

- Fall Protection Component Training
- Fall Protection Component Refresher Training
- Fall Protection Awareness Training
- Fall Protection Equipment Inspection Training
- Confined Space Awareness and Training
- Fall Protection Program Development
- EM 385-1-1 24 Hour Fall Protection Course
- Fall Protection Rescue and Program Training

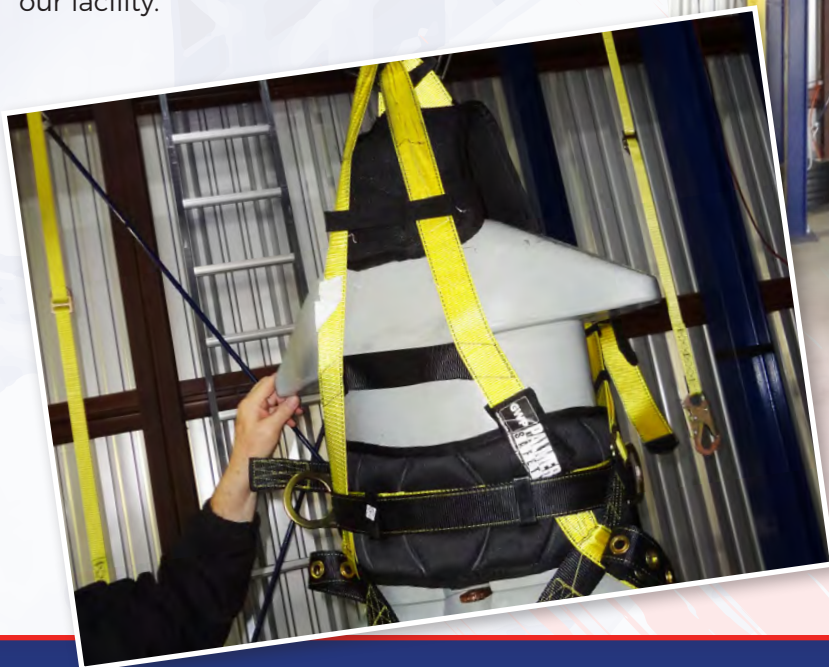

Let us know how we can help.

Palmer Safety Test Tower

Palmer Safety is committed to everyone's safety. To help ensure our quality, we batch test random samples per every 500 units to confirm compliance to the pertaining ANSI Z359 standard.

Palmer Safety conducts measurements of arrest forces on products including dynamic performance testing on harnesses, SRD's, fall arrestors, personal shock absorbers, positioning lanyards and anchorage connectors and dynamic strength testing on SRD's. Certificates of Conformance can be issued upon request.

Customers are invited to come watch the performance testing of our fall protection equipment. Please call your sales account manager to schedule a test day and tour our facility.
